- Rare Natural Feature
  - Vertebrate Animal
  - Community
  - Invertebrate Animal
  - Nonvascular Plant
  - Vascular Plant
  - Animal Assemblage
  - Geologic

*The Open Space Plan identifies significant natural areas and potential opportunities to link fragmented natural areas. The Plan does NOT reflect public acquisition nor public use of private property. Rather, the Plan is intended to guide the Township and property owners in maintaining or developing property in a manner that promotes sensitive use of significant natural areas and that promotes connections between significant natural areas.*

The data presented on this map is from various sources including the Washington County GIS Support Unit and the Minnesota Department of Natural Resources. The data is intended to be used for general planning purposes only.
