The following Levy for the Year of 2002 was presented by the Clerk:

Total Levy	<u>1,251,412.00</u>

Kevin Nickelson asked what the levy was for 2001 and he was informed the amount was \$1, 059,272.00. He was informed the Capital Projects were funded by reserves last year. The following items would be funded by the Capital Projects: (1) New Roof for the Old Fire Hall: (2) Septic System for the Old Fire Hall.

The residents were informed the levy did not increase a sufficient amount as last year the township received approximately \$185,000.00 from local government funding.

Robert Bohrer made a motion to approve the levy for the year of 2002 in the amount of \$1,251,412.00. Motion seconded and motion approved.

Kevin Nickelson requested the Town Board to revisit the issue of the township keeping the Maintenance Building and the Old Fire Hall Building. Mr. Nickelson expressed his concern regarding some of the storage and also a concern about the danger of the loft built in the Maintenance Garage. Mr. Nickelson requested the Town Board to take a tour of the two buildings and reconsider the board's decision on this issue. Mr. Nickelson was informed that a group of residents had attended a meeting requesting that the town keep both buildings and the Town Board voted unanimous not to sell either building.

David Hebert made a motion to adjourn the reconvened Annual Meeting.
