

Meeting Date: 10/20/2009

Agenda Item:

9. b)

City Council Agenda Report

City of Scandia

14727 209th St. North
Scandia, MN 55073 (651) 433-2274

Action Requested: Make appointments to the Zavoral Mine and Reclamation Project EIS (Environmental Impact Statement) Project Advisory Committee (PAC).

Deadline/ Timeline:

- Applications for citizen members closed Tuesday, October 6 (4 pm); interviews held October 13
- First meeting of PAC will be scheduled after appointments are made, tentatively during the first week of December

Background:

- The PAC, as conceptually approved by the City Council on September 15, would have up to 12 members: 1 Planning Commissioner, 6 agency representatives, and up to 5 interested citizens (who might be individuals or group representatives.) The PAC will receive technical support from the consultant team, staff and representatives of the proposer.
- Seven citizens applied for membership in the PAC. They were interviewed by consultant Trudy Richter, Mayor Seefeldt and Administrator Hurlburt, who recommended appointment of the following five citizens:

Jed Chesnut	21830 Olinda Lane N.
Bill Clapp	19955 Quinnell Ave. N.
Lisa Schlingerman	20661 Quint Ave. N.
Kristin Tuenge	20595 Quinnell Ave. N.
Mike White	13310 188 th St. N.
- They were recommended as the best candidates based on their willingness to examine all the issues that will be a part of the EIS, their ability to take a broad perspective, their diversity of background and life experiences, and their connections to the community that will help them communicate and share information with those outside of the group.
- For the other members of the PAC, staff and consultants are recommending that 7, not 6 agency representatives be appointed as there was greater interest among the various agencies than expected. This would expand the total membership to 13.
- The Planning Commission has selected Tom Krinke as its

representative to the PAC.

Recommendation: I recommend that the Council make appointments to the PAC as shown on the attached roster.

**Attachments/
Materials provided:**

**Zavoral Mine and Reclamation Project
Environmental Impact Statement Project Advisory Committee**

The Zavoral Mine and Reclamation Plan Environmental Impact Statement ("EIS") Project Advisory Committee ("PAC") is being established by the Scandia City Council to facilitate an open exchange of information and to obtain input on the EIS analyses and mitigation measures as they are developed. The PAC will be advisory in nature and shall be comprised of no more than 12 people. The PAC will include 1 Scandia City Planning Commission representative; up to 6 agency representatives such as the Carnelian-Marine-St. Croix Watershed District and National Park Service-St. Croix National Scenic Riverway; and up to 5 interested property owners or representatives of interested groups. These 5 members will be selected by the City Council pursuant to an application and selection process that may include interviews.

The PAC will be moderated by Trudy Richter of Richardson, Richter and Associates, Inc., a member of the AECOM consultant team retained by the City to prepare the EIS. The PAC will be supported by a technical committee including representatives of the Tiller Corporation, Sunde Engineering (Tiller's technical consultant), the AECOM consultant team, and City staff. The PAC will engage in open, purposeful, and transparent discussions so that there is a shared understanding of the environmental review process and the information developed or used as part of that process.

The PAC will meet 4 times during the EIS process, which is estimated to take approximately 12 months. The City plans to hold the first meeting during the work week in late October or early November from 4:00-6:00 pm. The agenda for the first meeting is to provide introductions, discuss roles and responsibilities, provide an overview of the EIS process, and provide an historical perspective as well as general background information on the proposed mining activities. This first meeting will be followed by two meetings focused on technical issues as information is developed during the preparation of the EIS, including hydrogeology, water resources, other environmental, economic, and social issues, and potential mitigation measures. The fourth meeting will be for the Committee to review and comment on the draft EIS.

If you want to be on the PAC, you are invited for to attend a site visit that is being held on September 30, 2009 at 4:00 pm. We will meet at Scandia City Hall. Applications for participating on the Committee are due in the City offices by 4:00 pm October 6, 2009. The application can be downloaded from the City's website at www.ci.scandia.mn.us and are available at City Hall. Appointments will be made by the City Council, tentatively at its October 20, 2009 meeting.

Interview Schedule for Appointment to the Zavoral Project
EIS Public Advisory Committee

Tuesday, October 13, 2009
