Subject: FW: high-risk attachment - open at your own risk - verify sender is known SHPO Database Review Request

THIS EMAIL IS NOT A PROJECT CLEARANCE.

This message simply reports the results of the cultural resources database search you requested. The database search produced results for only previously known archaeological sites and historic properties. Please read the note below carefully.

No archaeological sites were identified in a search of the Minnesota Archaeological Inventory and Historic Structures Inventory for the search area requested. **A report containing the historic properties identified is attached.**

The result of this database search provides a listing of recorded archaeological sites and historic architectural properties that are included in the current SHPO databases. Because the majority of archaeological sites in the state and many historic architectural properties have not been recorded, important sites or structures may exist within the search area and may be affected by development projects within that area. Additional research, including field survey, may be necessary to adequately assess the area's potential to contain historic properties.

If you require a comprehensive assessment of a project's potential to impact archaeological sites or historic architectural properties, you may need to hire a qualified archaeologist and/or historian. If you need assistance with a project review, please contact Kelly Gragg-Johnson in Review and Compliance @ 651-259-3455 or by email at kelly.graggjohnson@mnhs.org.

The Minnesota SHPO Survey Manuals and Database Metadata and Contractor Lists can be found at <http://www.mnhs.org/shpo/survey/inventories.htm>

Subject: high-risk attachment - open at your own risk - verify sender is knownSHPO Database Review Request

Mr. Cinadr,

We are preparing an EAW for a project east of Scandia and would like to request an archaeological/historical/cultural review of the site. The proposed use of the site is aggregate mining and processing. The site is located in the SW¹/₄ of Section 18, and the N¹/₂ of the NW¹/₄ of Section 19, both in Township 32 N, Range 19 W, in Washington County, Minnesota. A topographic map excerpt with the site area delineated is included as an attachment PDF to this email.

No federal funding is involved with this project. Federal rules may be applied to certain aspects of the project (such as NPDES), but are administered by the MPCA.

If you have any questions or need more information please contact me.

Thank you,

Joseph Galluzzi
