Re: Third Quarter Class C Hauling Report, Zavoral Mining and Reclamation Project

Dear Neil,

The purpose of this letter is to provide the City of Scandia with the third quarter report on the numbers of trucks hauling Class C add-rock from the Zavoral Mine and the number and source location of trucks hauling Class C add-rock to the Scandia Mine per Condition #35 of the Conditional Use Permit (CUP) for the Zavoral Mining and Reclamation Project. The condition reads as follows:

*The applicant shall record and report the numbers of trucks hauling Class C add-rock from the Zavoral Mine site and the number and source location of trucks hauling Class C add-rock to the Scandia Mine to the City quarterly to ensure that additional truck traffic would not result from hauling from the Zavoral Site at peak demand concurrently with other sites. The applicant shall submit annual truck number and source reports with the Annual Operating Permit application.*

Third Quarter 2016:

- Approximately 415 truckloads of Class C add-rock were hauled from the Zavoral Mine.
- Approximately 415 truckloads of Class C add-rock were delivered to the Scandia Mine. The source of the delivered Class C add-rock was the Zavoral Mine.

If you have any questions please do not hesitate to call. I may be reached at (763) 425-4191.

Sincerely,  
**Tiller Corporation**

Christina Morrison
